Fondos internacionales
de indemnización de daños
debidos a contaminación por
hidrocarburos

OBSERVER STATUS WITH THE 1992 FUND

The IOPC Funds value the input of intergovernmental and non-governmental organisations, as this greatly assists with the proper functioning of the international compensation system. If your organisation is interested in the work of the IOPC Funds, you may consider applying for observer status with the 1992 Fund. You would then be invited to attend and participate in IOPC Funds meetings as an observer.

HOW TO APPLY FOR OBSERVER STATUS

If you would like to apply for observer status, please send a brief letter to the Director of the IOPC Funds, expressing your interest in the work of the Funds, formally requesting observer status with the 1992 Fund and stating why you consider having such status would be of mutual benefit to your organisation and the 1992 Fund. The Secretariat will then prepare a short document inviting the 1992 Fund Assembly at its next session to approve your request.

FURTHER INFORMATION

For further information regarding applying for observer status with the 1992 Fund, please contact Mr Thomas Moran, External Relations and Conference Department on 020 7592 7106.
